Subject: Request for a New Task Order

John,

EAS Request # 00233, in the amount of \$300,000, is being requested for a new Guardian Task Order, proposed to be # 023, the Niagra Falls Boulevard Site. The four digit Zipcode for this Site **14304-4909**. The ERRD Director verbally authorized a total project ceiling of \$600,000, of which \$500,000 was for mitigation contracting on May 13, 2016. The funding is necessary to initiate a removal action to dispose of radioactive contaminated waste at the Site. A SOW and IGCE Selection form are attached here for reference and are also attached to the EAS request. Eric Daly is the OSC of record for this Site. The FOA requirement for this Site has been satisfied. Both ERRS contractors submitted a response to the FOA notice on September 21, 2015. Their responses were incorporated into the ERRS Selection form attached. Eric is planning to mobilize on May 23, 2016.

Please contact Eric or myself should you have any questions regarding this request.

Thanks in advance for your help,

Mark
